Ground Water - Water Quality Regulatory Information

Metadata Updated: November 27, 2024

GeoTracker is the Water Boards' data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater. GeoTracker contains records for sites that require cleanup, such as Leaking Underground Storage Tank (LUST) Sites, Department of Defense Sites, and Cleanup Program Sites. GeoTracker also contains records for permitted facilities such as Irrigated Lands, Oil and Gas production, operating Permitted UST's, and Land Disposal Sites.

Access & Use Information

- Public: This dataset is intended for public access and use.
- **1** Non-Federal: This dataset is covered by different Terms of Use than Data.gov.
- License: No license information was provided.
